A Whole Family Can Be Fitted Out

In Warm, Stylish, Serviceable Clothes for very Little Money.

THE Clothes are just as good now as they were two months ago, and half the winter is yet to come. The prices we put on these goods early in the season were low enough in all reason. Our ordinary profits are small; our regular way of selling is as fair as any buyer could ask; but after the first of the year we face the problem of selling all goods left or carrying them over to another winter. We haven't room to store them. We lose if we keep them, and we must lose if we sell

We are Ready to Take Our Loss Now If We Can Turn this Stock into Dollars.

The money tied up in this merchandise will pay in advance for Spring purchases and entitle us to special cash discounts.

It requires courage to mark Fine New Suits and Overcoats at less than they cost to make. But it takes heroic measures to move goods at this season. We must make prices that will interest the light purse and the shrewd, close-figuring buyer. We reckon folks will come for goods if the price is low enough
